Fix now

Fix now · Kitchen · Egress · E-06 · NBC 2016 Part 4 NBC 2016 Part 4 (sample mapping)

Kitchen exit route blocked

Observation: sacks of onions and flour are stacked in front of the rear exit. About 0.6 m is left to reach the door during service.

Corrective action: move the sacks to the dry store and keep the route to the rear exit completely clear.

Measured clear width 0.6 m · AI suggested Fix soon (64%) · Expert decided Fix now

Fix now · Exits and terrace · Egress · E-02 · Open since 12 Apr 2026

Rear exit door locked

Observation: the rear exit was locked from inside during service; the key was with the manager.

Corrective action: keep it unlocked while the kitchen is open, or fit a lock that opens from inside without a key.

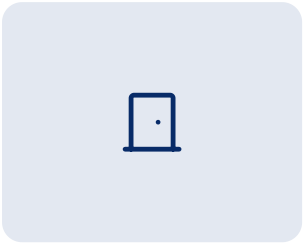

Fix now · Kitchen · Housekeeping · H-05

Oil stored near the fryer

Observation: two tins of cooking oil sit on the shelf beside the fryer.

Corrective action: store oil in the dry store, away from heat.

Scope of this audit

What it covers

The 48 checkpoints of AGNIYA's commercial kitchen template, checked in person on the day, with the documents Northwind Foods shared: Fire NOC and extinguisher AMC record.

What it doesn't cover

Concealed wiring, function tests of alarms, pumps and extinguishers, and structural matters. These need specialist testing.

Visit record

Checked in	28 Oct 2026, 10:06, at the site address
Checked out	28 Oct 2026, 13:40

Questions asked of the customer	1, answered on 28 Oct 2026
Template	Commercial kitchen, 48 checkpoints

Expert's declaration

I visited this site in person, decided every checkpoint myself, and the findings describe what I saw on the day.

Check this report is genuine

Scan the code or open https://verify.example.invalid/AGN-E-2026-000412 and enter report AGN-E-2026-000412. A corrected report gets a new version; earlier versions are kept and marked as replaced.

An AGNIYA expert audit, mapped to NBC 2016 Part 4. It is not a statutory Fire NOC and does not replace one.
